About Me

A Frontend Developer with around 2 years of experience in website development. Experienced in building integrated corporate solution platforms, such as QLola by BRI, movie player applications, and websites for internal team needs. Skilled in using modern technologies such as React.js, Next.js, and CSS to create responsive and functional user interfaces.

Working Experiences

PT. Bank Rakyat Indonesia Tbk   **Jakarta, Indonesia · On-site**
Frontend Developer   *August 2022 – Present*
Project QLola

- Developed user interface designs provided by the UI/UX team.
- Resolved bugs identified by SonarQube scans and security findings from the penetration testing team.
- Contributed to the implementation of clean code practices and the adoption of micro frontend architecture using webpack.
- Collaborated with the backend team to integrate RESTful APIs, ensuring seamless data flow and functionality across the web application.
- Tools: Next.js, Redux, Material-UI, Webpack.

Project Qlola Web Admin

- Built and optimized the web interface based on designs provided by the UI/UX team.
- Contributed to the implementation of internal features to support the facing web, including multi language support and user-specific feature distribution.
- Implemented data integration with backend services to support internal tools and enhance admin functionalities for managing user-facing features.
- Tools: Next.js, Zustand, Ant Design.

Knight Connections Sdn Bhd   **Jakarta, Indonesia · Remote**
Software Developer (Internship)   *June 2022 – August 2022*

- Developed proficiency in Javascript ES6, React.js, and Node.js.
- Wrote clean, maintainable, and efficient code using Javascript ES6 with React.js.
- Conducted testing and successfully integrated code with the existing system at Ksatria Mitra Solusindo.
- Analyzed and resolved bugs to ensure optimal performance.
- Prepared and submitted daily progress reports to the supervisor.
- Tools: Javascript, React.js, Node.js.

Hotel Niaga   **Surabaya, Indonesia · On-site**
Web Developer (Internship)   *February 2020 – June 2020*

- Develop a company profile using WordPress.
- Create a company website that displays complete information about the types of rooms and services available.
- Tools: WordPress.

Education

Petra Christian University   **Surabaya, Indonesia**
Bachelor of Computer   *July 2017 – February 2022*

Graduate with a Bachelor of Computer Science degree in Information Technology with a concentration in Network Technology, studying network architecture, protocols, security, various types of network attacks, and mitigation strategies, while developing practical skills in the design, configuration, and troubleshooting of network systems.
